Executive Summary:

On behalf of members of the "Home Again" Consortium, Neighborhood Housing Services of Orange County (NHS OC) was awarded \$7,500,000 in NSP2 funds to acquire, rehabilitate and re-sell or rent at least 100 housing units in census tracts in Orange County with an average foreclosure need score of 18 or greater. The organizations that make up the HomeAgain Consortium formed a collaborative in 2008 to address how to reduce the impact of REOs in neighborhoods in Orange County. After becoming aware of the availability of NSP2 funds for non-profit organizations, the collaborative decided to apply for NSP2 funding as the HomeAgain Consortium to increase efforts to stem the negative effects of foreclosures on neighborhoods and property values throughout Orange County. The consortium members are all non-profit organizations who have histories of providing housing opportunities for very low to moderate income residents in the County.

Orange County has been identified as one of the hardest hit areas in the country in terms of foreclosure. This has had a negative effect on property values which have decreased by 41% in a 2 year period beginning in mid-2007. The large rise in foreclosures has led to a significant decline in homeownership rates and a further decline of neighborhood stabilization.

The consortium's NSP2 strategies include:

- Acquiring at least 100 housing units through the National Community Stabilization Trust and other means in a target geography which has an average combined foreclosure needs score of 18 or greater.
- At least 25 percent of the consortium's NSP2 funding will be used for the purchase and rehabilitation of abandoned or foreclosed homes or residential properties that will be used to home individuals or families whose incomes do not exceed 50 percent of Area Median Income.
- Rehabilitate the properties to community standards and where possible use "Green Practices" when making repairs or replacements.
- Re-sell or rent the units to qualifying individuals or families. When re-selling properties, down payment assistance will be provided for households in need of assistance.

The four program activities are:

- Acquisition, Rehab, Resale - Single Family Residential (ARR-SFR) \$4,850,000
- Acquisition Rehab, Rental - Multi-Family (AAR-MF) \$1,900,000
- Home Buyer Down Payment Assistance- Single Family Residential (DPA-SFR) \$0
- Administration (\$750,000)

NSP funds will be used for down payment assistance loans in the homes that have been purchased and rehabilitated through the program and may also be provided for abandoned and foreclosed NSP qualified homes that are acquired and rehabbed by HomeAgain Consortium members through private funds. For the most part, down payment assistance will be provided for homes acquired with NSP funds, but in the case that it is necessary to acquire an abandoned or foreclosed home that qualifies for NSP with private funds, NSP funds may be used to provide down payment assistance.

One strategy in selecting homes is to focus on properties that are least likely to be purchased because of the amount of rehabilitation required or the impact of foreclosures in the census tract. This will help neighborhoods and allow down payment assistance mortgages to be placed on the properties that are hard to sell.

The consortium will target completing acquisition and rehabilitation of 75 single family residential units and/or condominiums for resale and 25 units for rent. A number of the rental units are targeted to serve special needs populations. All of the rental units proposed will be targeted to serve households with incomes below 50% of Area Median Income. Income eligibility of all program applicants will be verified, including third party verifications. For-sale units will have a 15 year affordability period and rental units will have a 55 year affordability period. No program

beneficiary will have household incomes over 120% of Area Median Income.

NSP2 funds will be used to acquire and in may be used to rehabilitate properties. Consortium members will either rehabilitate the properties using their own rehabilitation staff, with volunteers or with contractors selected through affirmative marketing.

The consortium will also provide down payment assistance loans which will be considered gap-financing that will be limited to the amount necessary to bridge the gap between the maximum first mortgage attainable and the amount the homebuyer needs to qualify for purchase of the home. Additional subordinated financing and grants may be used to create additional gap financing if needed.

Selected Consortium Members will also acquire and rehabilitate foreclosed properties that will serve as multi-family or special needs rentals. This program may require a variety of additional funding based on the size of the property, such as: redevelopment housing funds, tax credit financing, as well as other State and Federal sources. The Consortium plans to rent these units to households at or below 50% of the area median income. Deferred loans or grants will be provided to the Multi-Family projects to allow them to achieve the level of affordability required. This gap financing will be secured by a note or covenant.

At a minimum, 50% of the grant funds will be expended by February 2012 and all of the grant will be expended by February 2013. NHS OC will use 10% of the grant funds for Administration.

The housing median prices throughout the County of Orange have tumbled from \$645,000 in June 2007 to \$380,000 in April 2009; representing a price decrease of 41%. These plummeting home values have only added to the number of housing foreclosures, even from steady home owners as they walk away from homes with negative equity.

Lower housing prices may seem to benefit the cause of homeownership in the County of Orange as the market adjusts from previous overvaluation, however, the unemployment rate as of April 2009 in Orange County is 8.6%. This level of unemployment in Orange County severely undermines the ability for residents of the County to meet their basic housing needs as well as receive credit for proceeding into the future.

Renters have also experienced loss of housing due to foreclosure in Orange County. Though not as prevalent as that of foreclosure of single family homes, an opportunity exists to acquire rental properties either of one to four units or more than five units to create affordable long term rental options for very low income families which are needed throughout the county.

Program Approach:

The Consortium will purchase and rehab properties in census tracts in Orange County with an average foreclosure needs score of 18 or greater. This will help to support older neighborhoods with a greater need for structure rehabilitation and will make it possible to access troubled rental projects that otherwise may not be eligible for NSP2 funding.

The Home Again Consortium has four Proposed Activities that require NSP2 funding:

1. Acquisition, Rehabilitation and Resale - Single Family Residences Program (ARR-SFR)
2. Acquisition, Rehabilitation and Rental Program (ARR-MF)
3. Homebuyer Assistance Program (DPA-SFR)
4. Administrative costs will not exceed 10% of NSP2 funding.

For clarification, the Consortium intends to provide Homebuyer Assistance in the form of a deferred 2nd or 3rd mortgages on the for sale properties. For the most part, the Consortium plans to provide this assistance to homebuyers that will purchase homes that have been purchased and rehabilitated by one of the Consortium Members with NSP funds. Thus, this Action Plan reflects moving the 45 units of Homebuyer Assistance totaling \$2,700,000 to the Acquisition, Rehab, Resale activity. This would increase the ARR-SFR activity for a total of \$4,850,000 with the ARR-MF activity remaining at \$1,900,000. In the case that it is necessary to acquire NSP homes with private funds, NSP funds may also be used for Homebuyer down payment assistance for homes acquired with private funds.
